How to Play

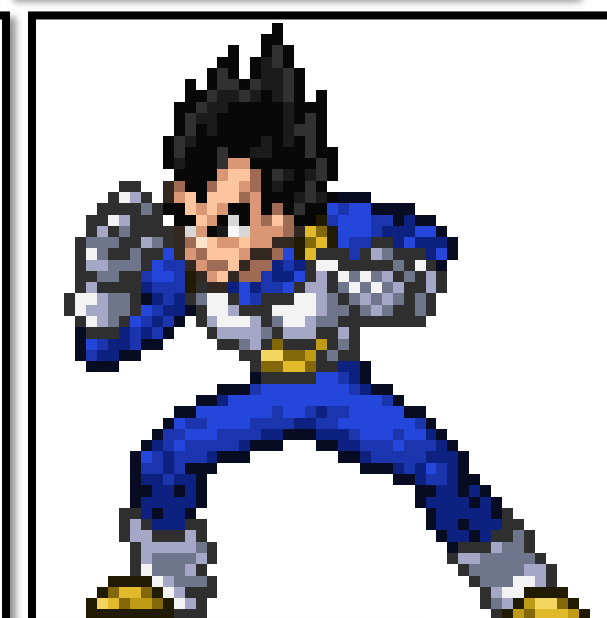

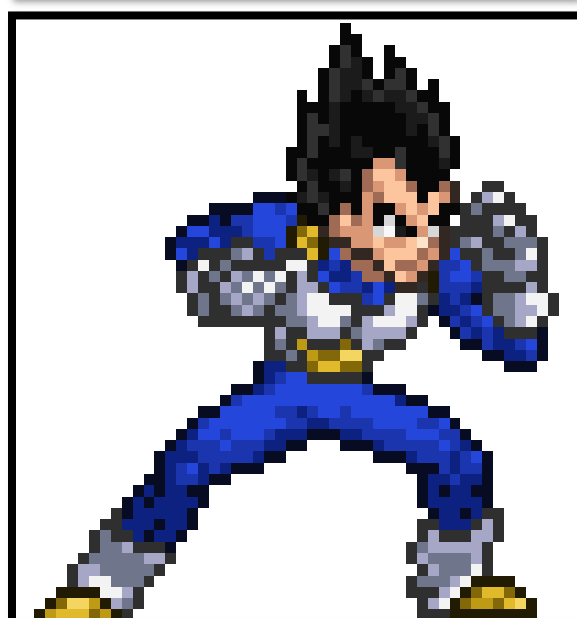

This game is a multiplayer fighting game and you don't have a lot of missions in this the single player will be part of a dlc but anyways.

So there will be a health bar and an energy bar you take turns fighting like a punch will be -1 hp box out 20 hp boxes and a kick will be -2 hp boxes out of 20 hp boxes a finisher will be -5 hp boxes out of 20 hp boxes and this goes for the same for energy just replace the hp with energy

Also choose any 3 characters and write their names in the circle
