How to win:

- The player can grab the taser on the bottom right corner and use it as a weapon.
- The player must retrieve the blue and black wheel on the wall by unlocking it with a key that the henchman on the right is holding.
- The player then has to put the wheel in the blue slot next to the throne and turn it to break the chains holding down the king.
- To do this the player must defeat the two henchmen standing guard, they are armed with one pistol each.
