

the

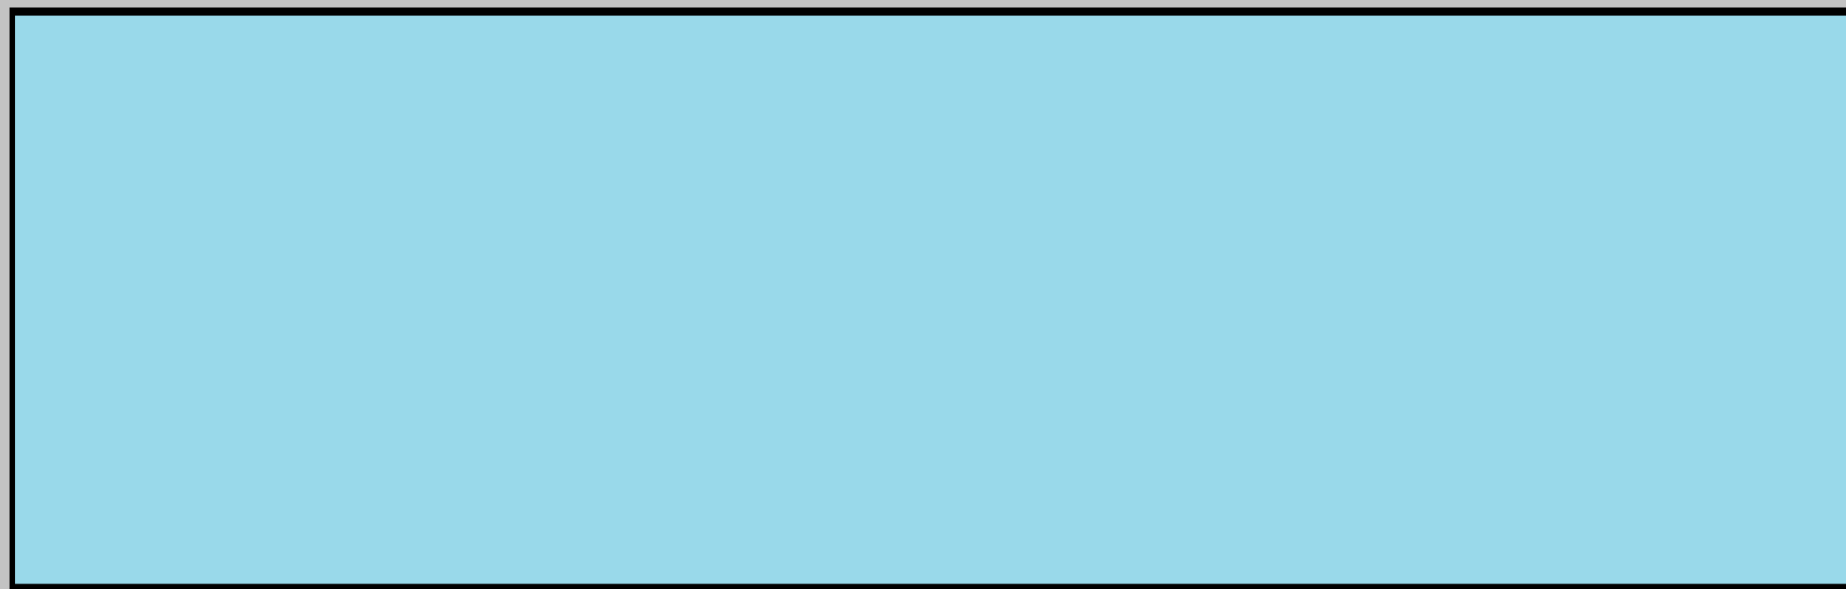

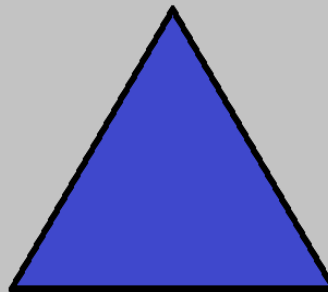

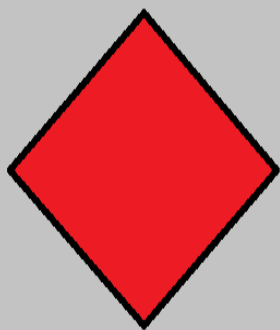

crystal

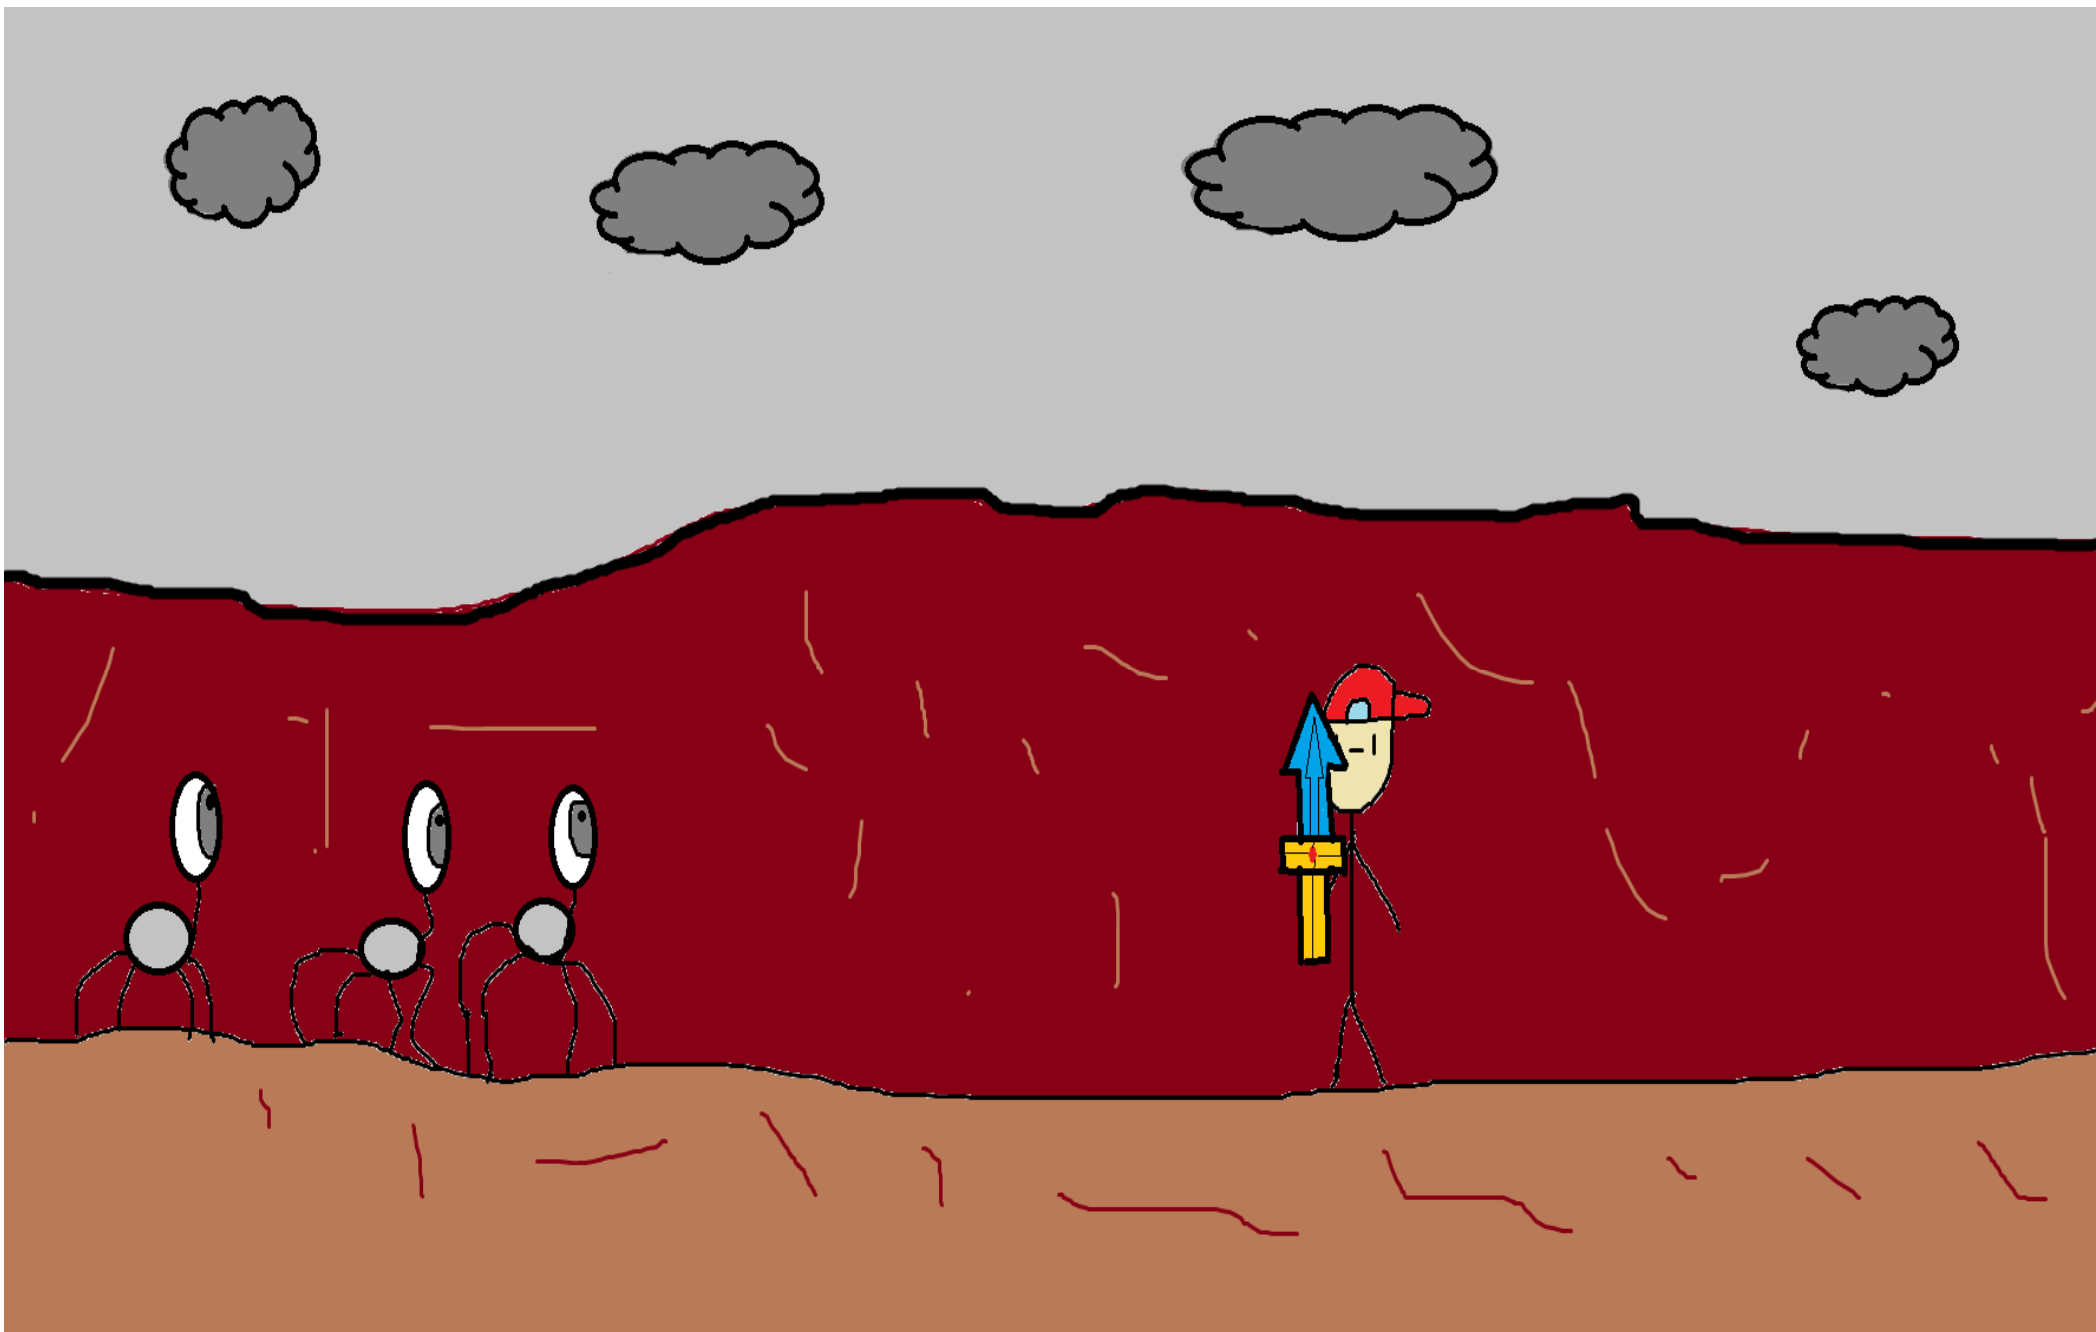

PHANTOMS

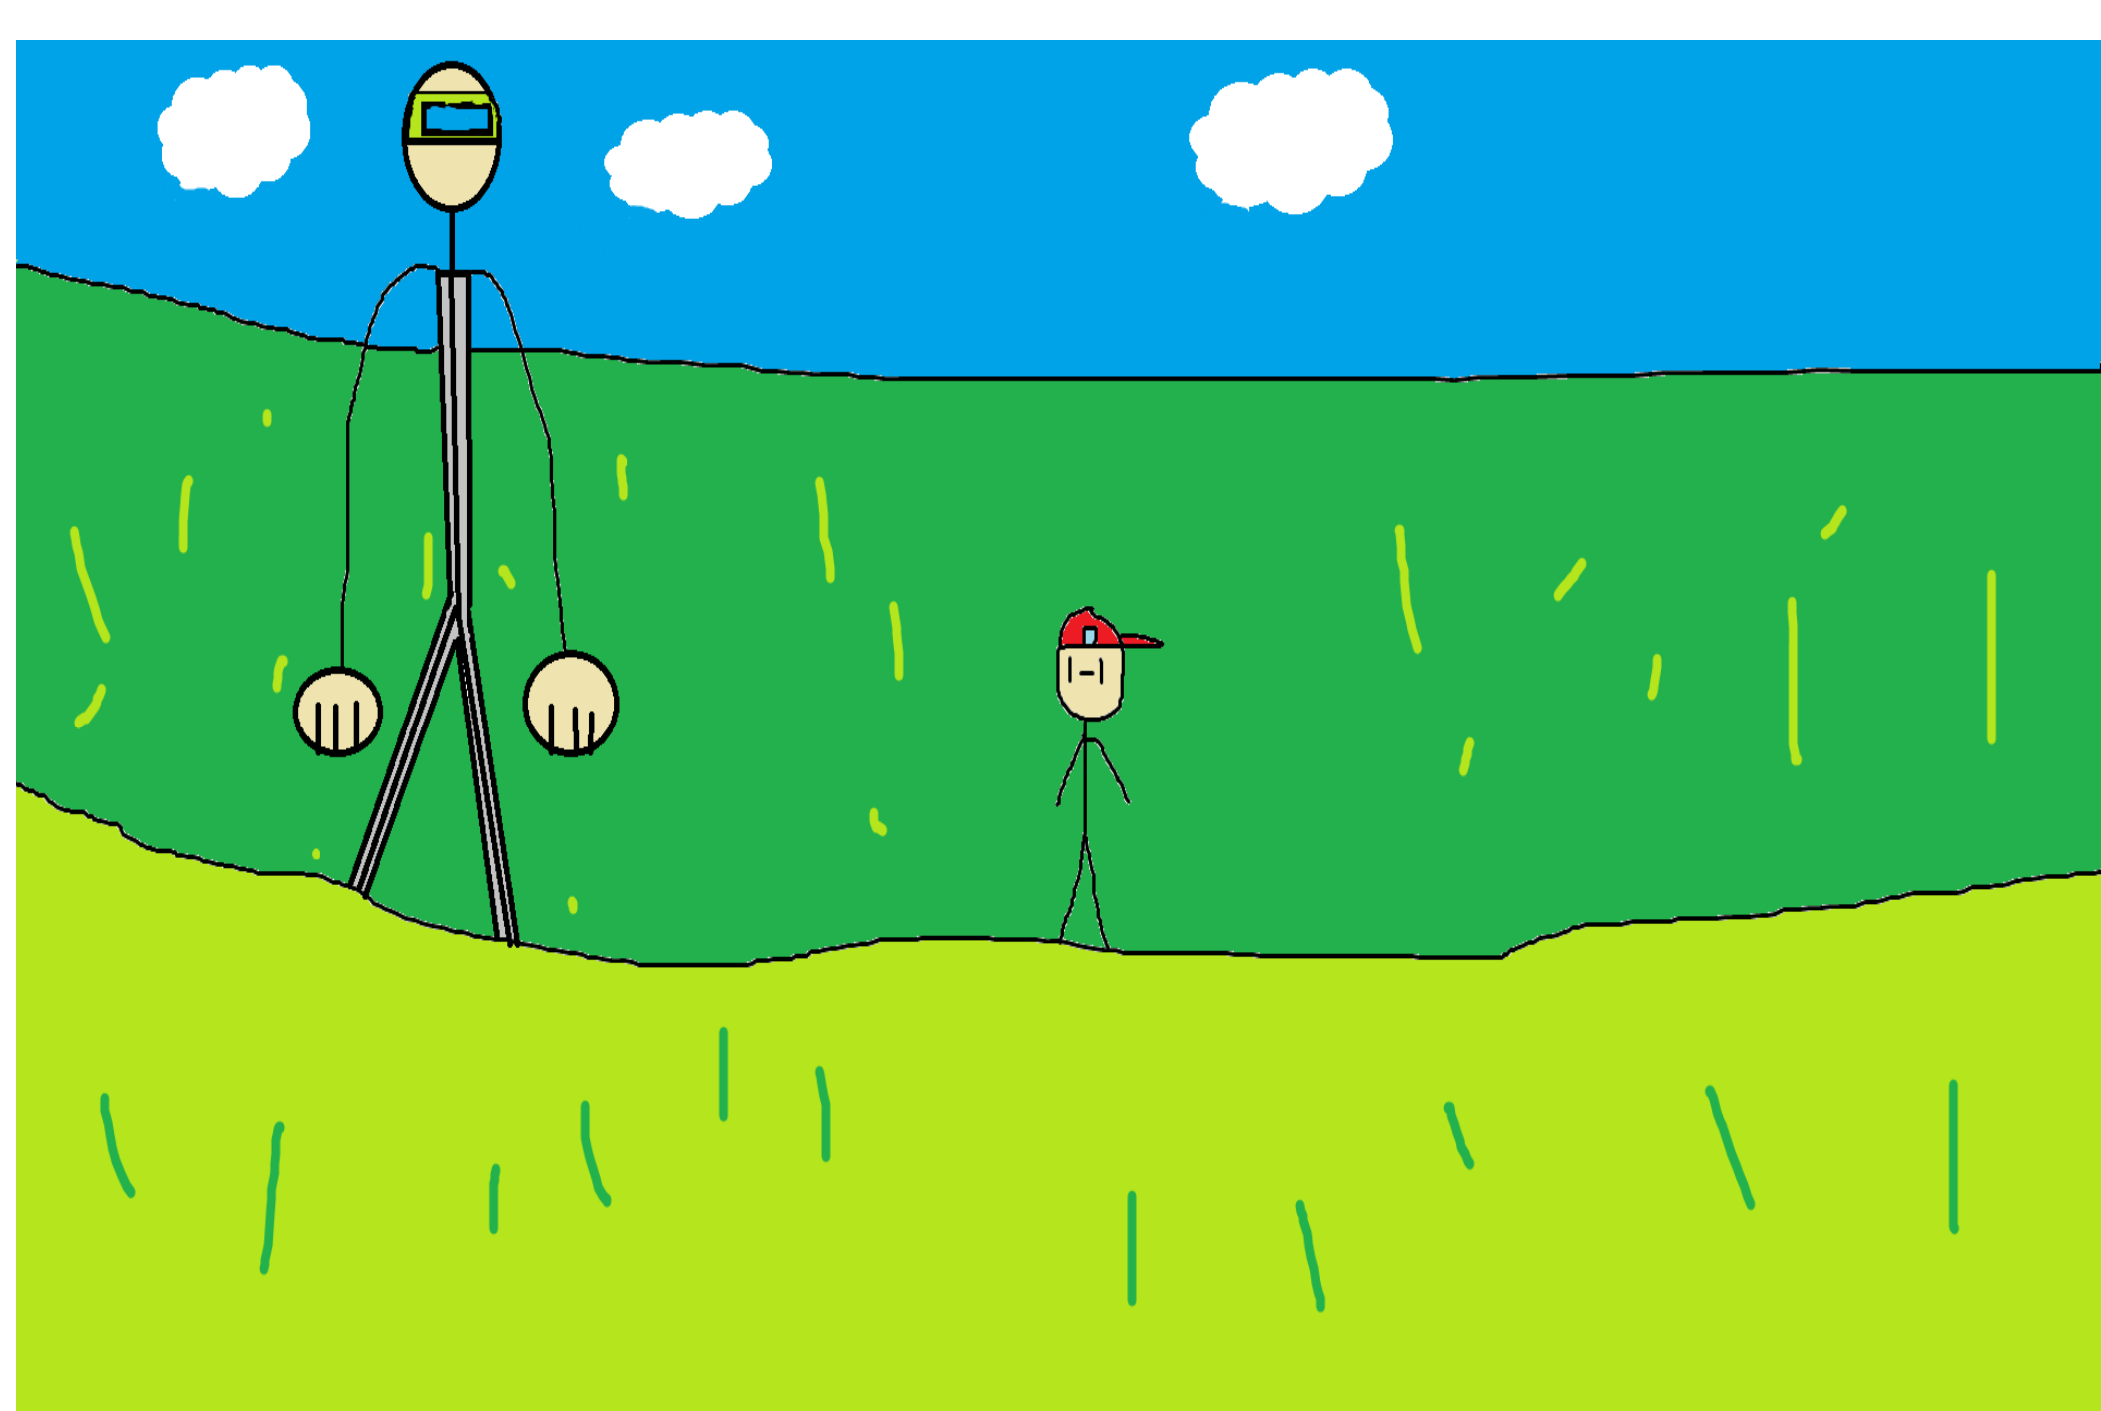

PCG

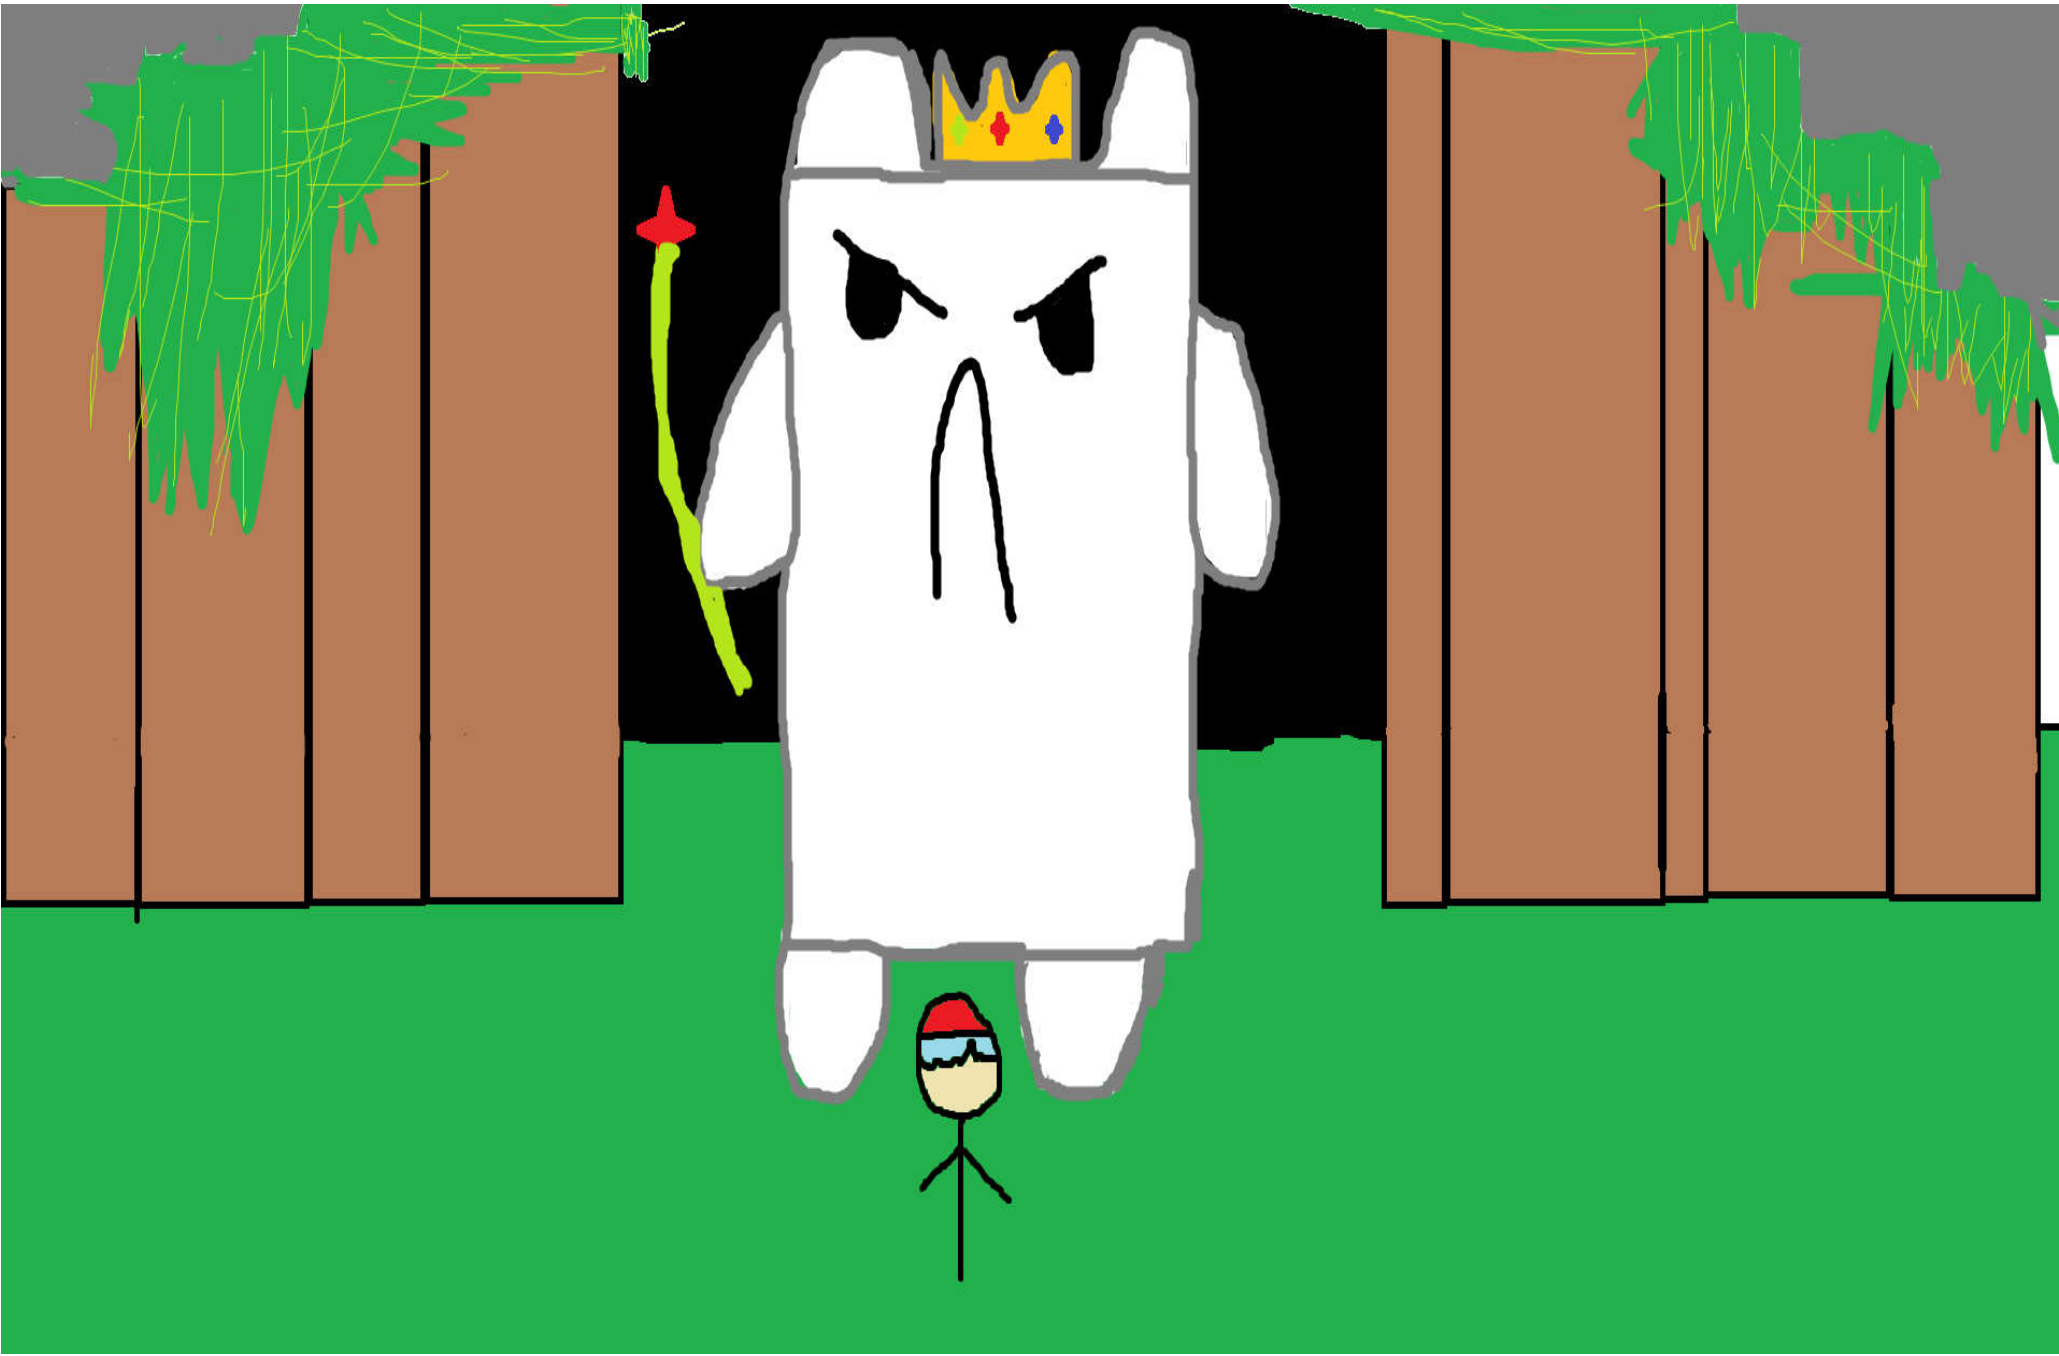

How to win/rules/script/idk:

- Plz read the description of this pcg (on the pcg shop) or this will not make sense
- “ as you were walking through the forest finding your way to king grimlen the 3rd you come across some talking trees Those ‘trees’ are called thra (no connection with the dark crystal) thras are born or grown wise and block paths giving who ever wants to cross it a paper (made with elephant poop that’s a real thing) with a problem if they solve it the thras not only move out of the way but also give gifts to them and there’s no way to go pass them
- move to the second page

- “they give this piece of paper which you have to find the 3-digit code clues are the shapes
- the code is 443 you get that by just counting the sides of each shape
- if completed say
- “ok the thras move out of the way and gives you golden sword
- go to page 3
- “as you go thru the woods even more to king grimlen the 3rd the sky and the soil changes then you come across eyespiders which are basically very very evil and ok to kill

and blocking your way was the only way to go across is to fight them

- beating the eyespiders are up to you just if you think it works it works

- if the player beats the eyespiders go to page 4

- “as you walk even more thru the forest to king grimlen the 3rd you come across a giant that you can not just go pass it or it will crush you with their giant hands the giants to are very evil and ok to kill too the only way to get past it is to fight it

- beating the giants is again up to you just if you think it works it works

-“as you keep walking you have finally found grimplenville the grimplens take you to king grimlen the 3rd but king grimlen the 3rd is pretty lazy so instead of fighting him he says convince me to give you the crystal

-this part is up to you think that you are king grimlen the 3rd what will convince you to give him the crystal

-if he gets the crystal say

-“you have finally got the crystal your journey to phantomville wasn't that hard but after you have gone there you give the crystal to sir phantom the 5th and he puts it in the chamber tra la laaa you have saved all of the phantoms the end
