### Epic Worlds PCG

**Intro:** You play as Votto the elf. After returning from a trip hunting you come back to your land only to find Orks building on it! You must stop them. (There are many different ways to beat this game, so the PCG master can make stuff up too)

**Pg#1:** On this page the Orks don't see you yet, because you are behind the volcano. You can pick some poisonous berries to use later. There are also some rocks scattered around you that you can pick up. At the top right of the screen is Gron Fresnell who will smile at you and talk, but he won't really do too much. The Ork tower to the left has two Orks that you can lure down by making a noise and then single out.

**Pg#2:** On this page you see an Orc on the bridge over the volcano. You can easily charge him and take him by surprise pushing him into the lava.

**Pg#3:** You see a whole Ork fortress, and it has 4 guards in it. You can also see a tank rather close to you, but it is pretty slow. If you dash and hide behind that tree then you can snag the mercado coins. If you dash to the left of the screen you make it to pg#4.

**Pg#4:** On this page you see a giant Ork who is guarding a mercado coin and a portal. You can lure him to the trap door in the bottom left of the screen to make him fall through it. The big mercado coin gives you 10 mercado coins to use in the next PCG you play. If you head to the portal the game is over and you have won.
