

SHREK

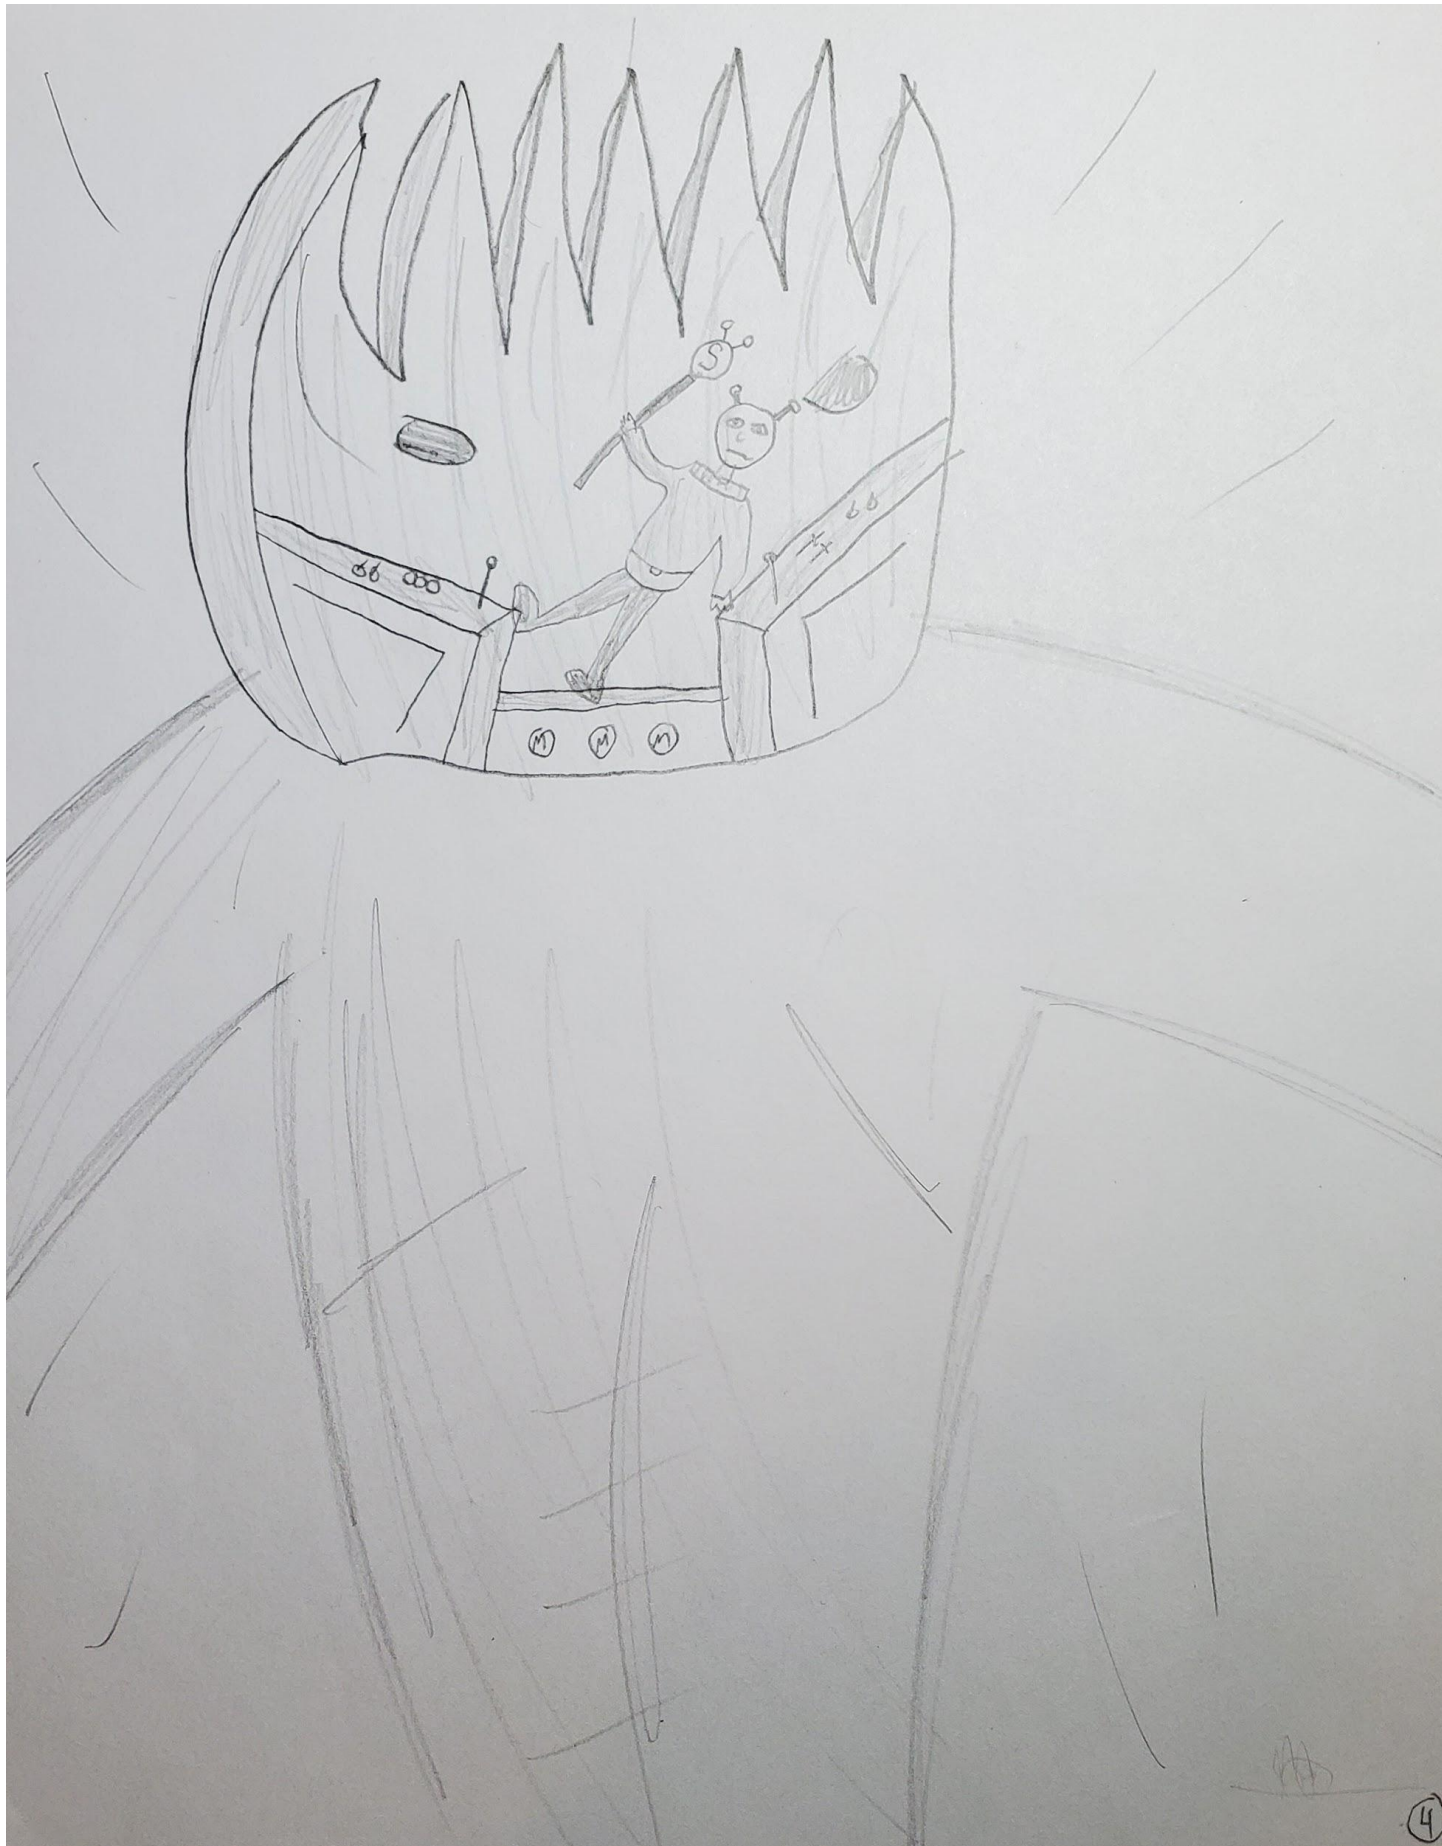

"Mecha Shrek"

Script

2022 Paper Computer Game

By: Epic Worlds PCG

Introduction: In this game you play as John. You were hired by Arx the Varx to take down this “Giant” that has been making earthquakes all around the planet Gondo.

pg#1: You are on the bottom left of the screen. To the right of you are a few rocks, a berry bush, and a plank of wood with two nails sticking out of it. To the top left of the screen is a stormtrooper. (There is also a path right under the stormtrooper) You can talk to the stormtrooper and ask if you can try out his speedor bike which is located right above him. You can then trick him and take the bike to use for yourself. (Now of course there are other ways to get the bike, but this is the most common). Then go to page 2.

pg#2: On this page you see a huge valley of spikes. You must go very slow with your speedor which can only hover 2 feet above the ground. (the speedor is also equipped with 2 infinite shot lazer guns) You can shoot the mega trooper with the two cannons easily, but you must shoot his cannons first before he can shoot you. If you want to take out the other stormtrooper hiding behind the spike you must hide behind a spike, and move until you have a clear shot of him.

pg#3: On this page you see a huge fence that stretches endlessly (so you can not go around). In front of the 20ft electric fence is a sign that says beware. There is also a shovel you can use to dig under the fence to get to the middle portion or to the other side. If you talk to the tree person named Yendel treebeard, then he will tell you that you can take one item from the items you see around him. If the player takes more than one, then Yendel will use his roots to drag the player underground causing them to suffocate. **(The speedor can not go over the fence)** There are mercado coins scattered throughout the game, and when the player finds them they can add them to their inventory to use in the Mercado Shop that you can also find on the PCG shop. If you dig up any of the gravestones, then you will unearth some zombies of children long ago that will ask you for food, and try to take your items.

pg#4: On this page you see a huge MECHA SHREK in the distance. He will jump towards you and try to create an earthquake to knock you out. If you grabbed the hammer from the previous screen, then you can throw it at him to knock him out. You can also use the berries from page 1 to make him have an allergic reaction.
