Epic Worlds PCG

Pg#1: The player is sleeping in their bed when all of a sudden they hear a strange buzzing sound outside of their window. The player goes to investigate it, and they see a giant flying saucer outside their window! Inside the **drawer** by the bed is a key the player can use later to unlock a gun safe on page #2. The player can exit their room to pg#2

Pg#2: The player hears a strange scratching noise on their door. On the floor is a **People Magazine** that the player can use to scare The Hybrid once he enters the house on pg #3. The player can use the key they got from pg #1 to unlock the gun safe where they will find a **gun** with no ammo.

Pg#3: At this point The Hybrid has entered the house, and is chasing the player. The player can use the items in the house such as the stove or the toilet to try to kill The Hybrid. The goal is to get outside of the house.

Pg#4: Outside the house the player is confronted with more Hybrids! The player can talk to **Arx The Varx** who will give the player 2 bullets for his gun. Once the player defeats all the Hybrids they have won the game.
