Epic Worlds PCG

Pg#1:(This page is just a comic screen, and not actually playable) Story: Xaq decides to start an epic stream about reacting to peoples soup PCGs! He is so impressed that he is even inspired to make his own, but then a SOUP MONSTER pops out of Xaq's monitor in his room, and it starts chasing after him.

Pg#2: In order for Xaq to save himself he must fight the Soup Monster. This game would explain Xaq's hatred for soup ever since. (On this screen the PCG master decides if what the player does against the Soup Monster works or not. Once they defeated the Soup Monster then they win the game)
