Backstory: You play as Bouble Man. (yes, it is spelled like that) You decide to explore Quantum Field City which is located on Bouble World. You realize the city is about to get invaded and it is your job to save it! You have approximately 15 minutes before the tanks start to attack.

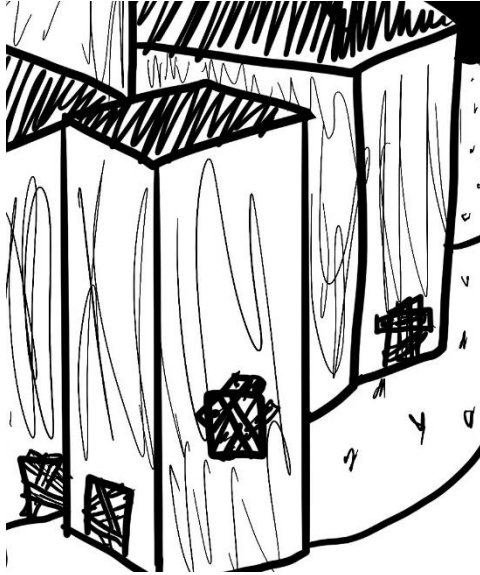

☐ Bouble Man

A Trash Can: If you open this, you find a small child named AHHHH. The child is at first scared and tries to run away, but if you are kind to it, you can team up with him.

Taco Restaurant: If you go inside, you find its empty, but there are some tacos. If you feed AHHHHH some tacos, he grows into a giant.

All The Other Buildings: All the buildings are locked up, but if the player uses AHHH's strength to break them open, the player finds some canons, machine guns, and flame throwers. (The player can use them to fight the tanks)

THE TANKS: All of these tanks are invading Quantum Field City.

Solution: The player must use the help of AHHH (who should be giant-sized because of the tacos) to crush all the tanks! The player can also use the weapons they found in the building to assist in the fight against the tanks.
