Counter-Strike Paper Computer Game

By: Epic Underworlds

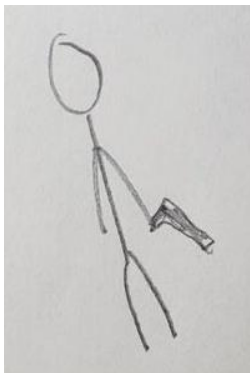

--SCRIPT--

Disclaimer: This game was made to be a tutorial PCG, so some of the art may not be up to par.

Inventory Screen: The items the player starts with.

Backstory: You are a new recruit who went on a mission to defeat an evil organization. Everything was going well until your team got ambushed, you were the only one who managed to escape. It is up to you to survive in this unknown land.

SCREEN #1

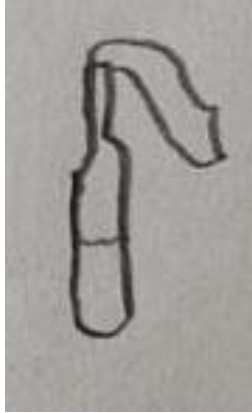

You, the player

The Enemy: He has a gun and will shoot you.

Solution: Tip over the Barrel that is filled with fire, it will hit the enemy and kill him.

Molotov: The player can pick this up. When they throw it, a giant fireball appears.

Barrel: This barrel has a fire going in it.

Smoke Fogger: When thrown, a giant cloud of smoke appears. (the player will need this later on)

A med kit (The player can use this later on if they need to heal someone)

A **bad guy** with a gun is coming around the corner to shoot you.

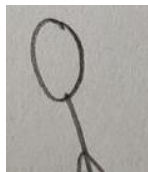

Solution: Throw your Molotov at the plank of wood, and it will ricochet into the bad guy, killing him.

If the player tries to use the smoke bomb, the bad guy can turn on his smoke goggles and still shoot the player.

Plank of wood

SCREEN #2

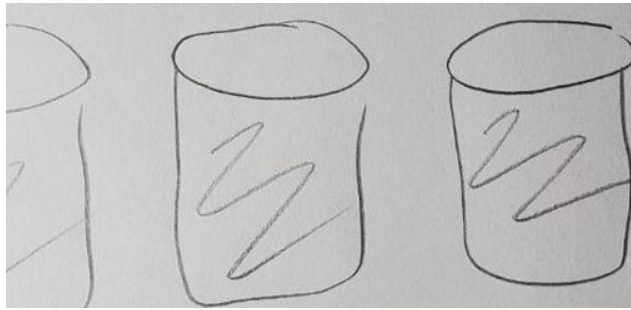

The player

A Hammer

Fire Hydrant (Once the player defeats the enemy by using one of the solutions, they can then smash the fire hydrant with the hammer to put out the fire, so they can safely walk to the next screen)

Barrels: Filled with oil

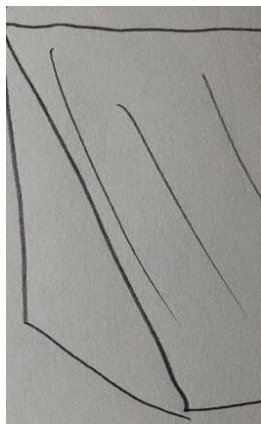

The Enemy: He has a Molotov and a gun.

Solutions---

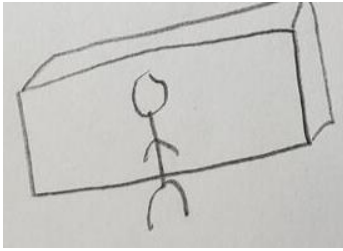

Shoot The Molotov: You can shoot the Molotov in his hand to blow him up.

Shoot the Barrels: You can shoot the oil-filled barrels to also blow him up.

Ramp: The player can walk up this ramp to get to the next screen after they defeat the enemy.

Screen #3

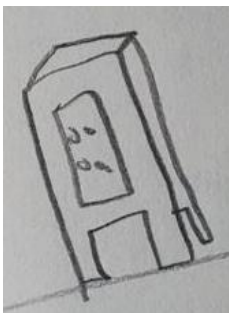

You hiding behind a bunker so you don't get shot

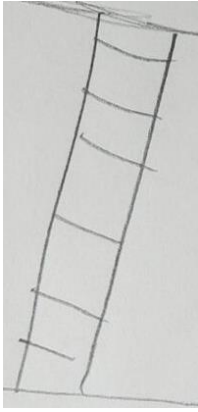

A Trash Can: Nothing inside, purely there to distract the player.

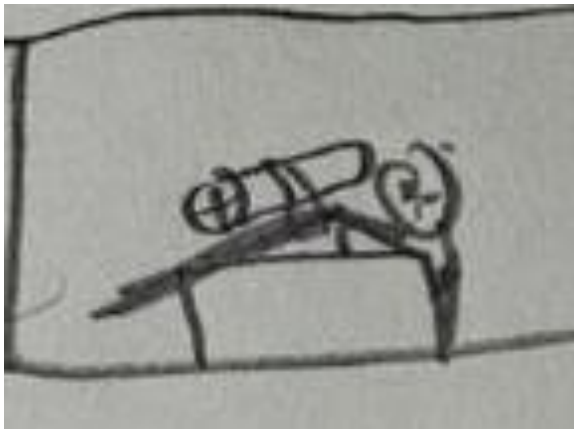

Mercado Coins: There are 3 coins the player can pick up.

Vending Machine: The player will need to purchase a bullet proof vest from this with 3 Mercado Coins.

Ladders: Easily climbable if you are wearing a bullet proof vest.

Enemy Sniper: He can easily shoot the player

Solution

The player must throw down the Smoke Fogger/Smoke Bomb so the sniper can not see them. The player can then grab the Mercado Coins and

use them in the Vending Machine to purchase a bullet proof suit. They can then climb the ladder and take out the sniper without getting killed.

Any other solution does not work!!!

Ending: You get picket up by a helicopter and transfer to your next mission. You also earn the medal of honor and have a movie made about your daring escape.
