

SPACE
BALLS:
THE UNKNOWN
SPACE BALL
CAPTIVE

Whoa...
where am
I?

Whoa, what
is this place?
Robot city?

Bot Dude.
Why're you up
there?

I am a
tutorial bot. I
can't venture
into the
unknown zone
for it will
devour
my soul.

The
unknown
zone?

Yes the three
outside of
the azzie,
off speed.

I am
a tutorial
bot.
If you find
my purple
drink, give
it to me
please

I dropped something
into the Unknown Zone
and then
I try to pick it
up and now
my arm is
stuck.

So how do I
get your arm
out?

Solve the
puzzle to
pass the
screen.

Thanks
that's really
helpful

Hmm I wonder what
this guy does?

Kill Sphere
Activator DESTROY

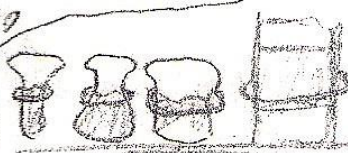

Whoa, should
have seen that
coming

AHHHH

Dolla
Dolla
Destroy
Destroy
Destroy

Oh god No time

I have to
pick one
but which
one?

I am a
Tutorial bot
yes I heard you the
first time, Tutorial Bot

Solve the
puzzle to
Pass the Screen

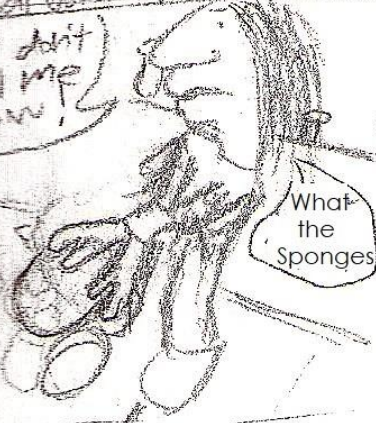

ok now is
not the time
Tutorial Bot!
I have to
concentrate!

That's what
I'm trying to
do, if you
would just
shut up for
1 minute!

Why don't you try
killing it?

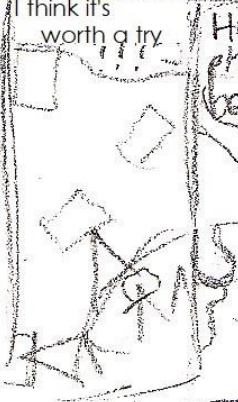

Now which
one do I
pick?

Jar don't
fall me
now!

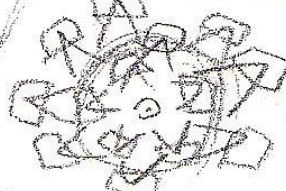

What
the
Sponges

I think it's
worth a try

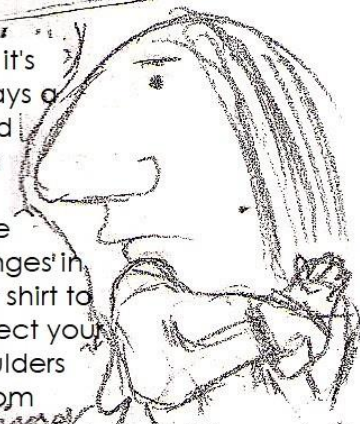

Hmm these sponges are
pretty usefull if I probably
be best if I took the rest.

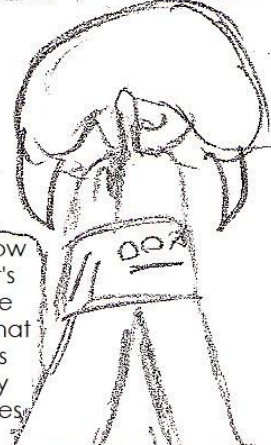

Don't
forget
to
pick

And it's
always a
good
idea
to
have
sponges in
your shirt to
protect your
shoulders
from

Now
let's
see
what
this
guy
does

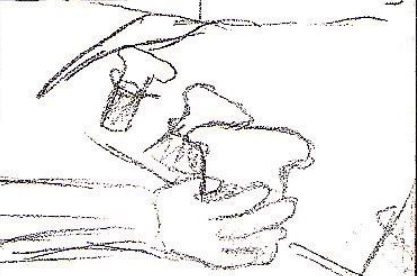

Brain Smasher
Activate Destroy

Yeah, yeah... I know
the drill

oh man all this fighting
is making me thirsty

Who
what
he
does

Maybe
this
could
work
to my
Advantage

He
sunk
his
spikes

into my
shoulders
and he is
trying to
drill my
head
my hands
above my
head! He's
stuck in my
cuffs!

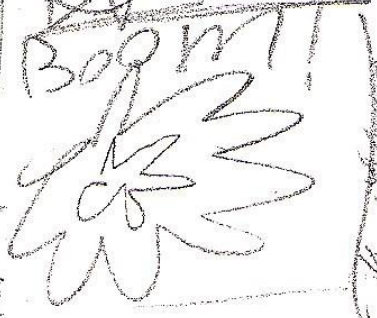

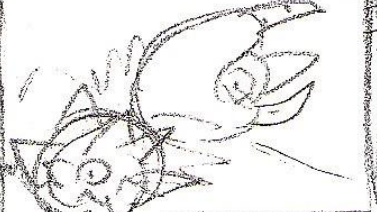

It
worked
by
putting

I think it
Also had
an effect
on
Brain
Smasher

He's
Sparkling!

Ewww tastes
like blue

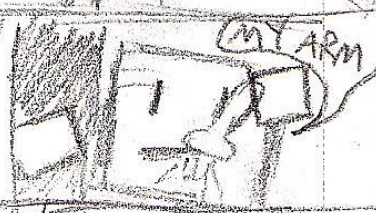

Wait a minute if I find a red liquid maybe I can make purple

Awww this is green (stupid comic book being without color)

Now with the red and the blue liquids I can make purple to save Tutorial bot

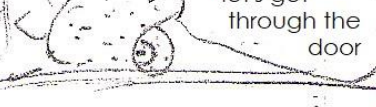

Here you go box

Let's see what else I can use on this shelf

meta Termites I wish I found these outlier

OK now that the Guard bots have gone, let's get through the door

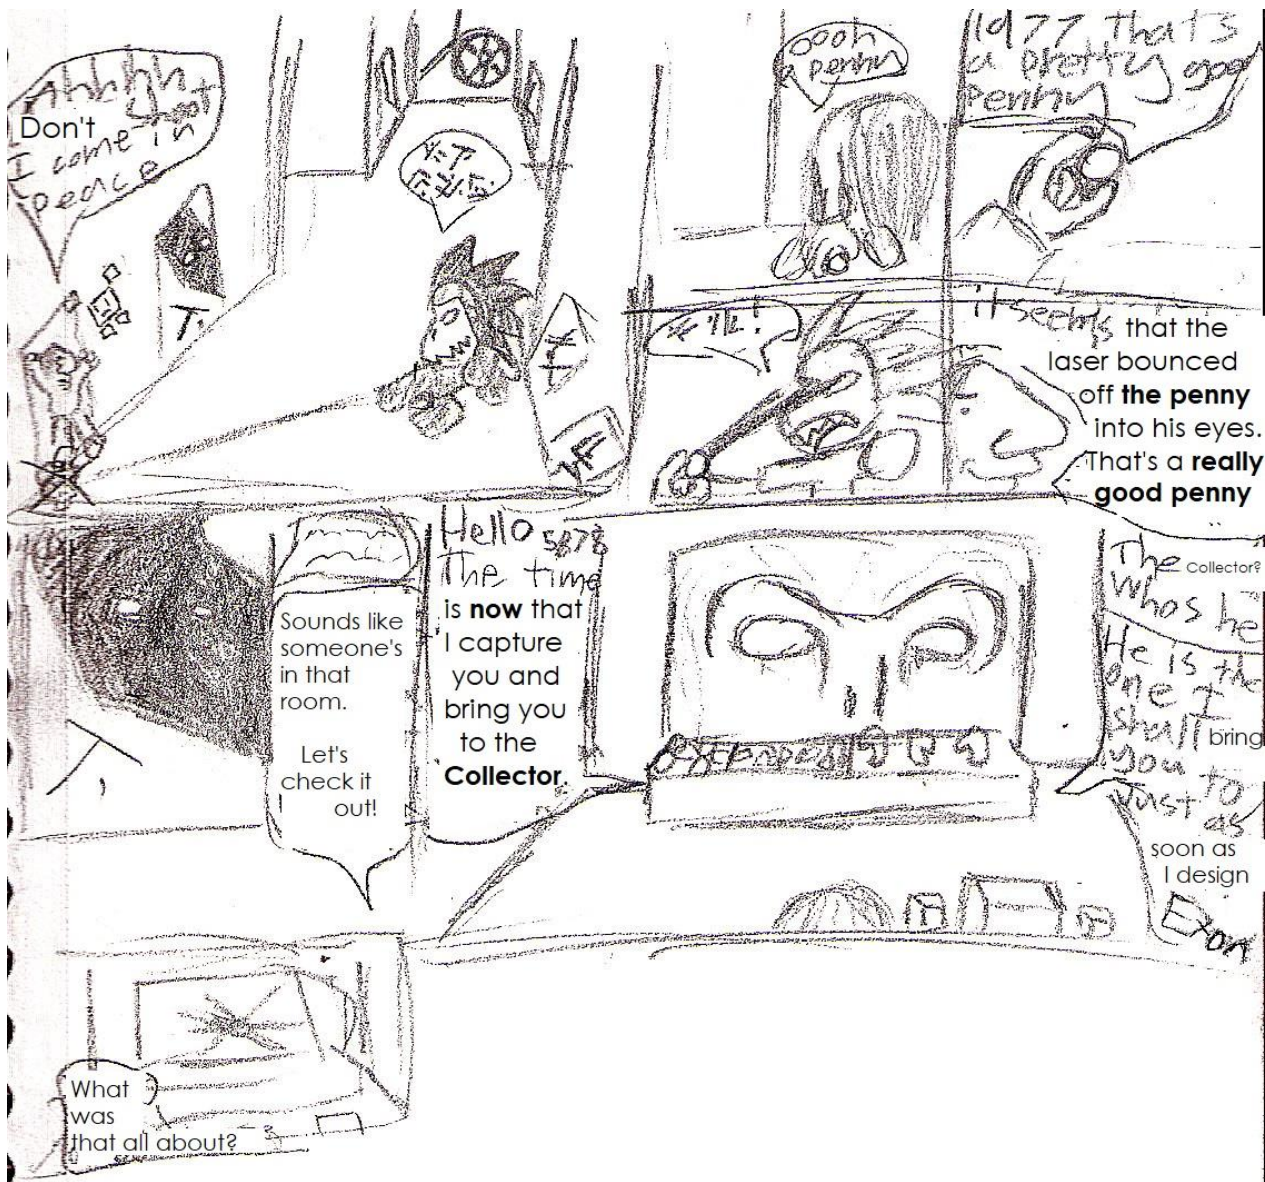

ok we got a can, a coin, and a pill bottle

Now for the code.

Well, like every other code, it's obviously

32

To Be Continued!!!

But probably not really. To find out the rest of the story,
play the original Paper Computer Game:
