Epic Worlds PCG

Intro: You play as Algrator the spider.

Pg #1-2: These pages are just lore/backstory, so just read them to the player.

Pg #3: On this page you see two Warrior Gnomes who each have one spear. You notice to the left of them there is a dead spider in a bag!! You can move through the bushes, and sneakily sneak behind the tree and drop onto them to kill them. You could also lure them into the bushes and take them out that way. (The reason you want to take them out is because they killed your brother!)

Pg#4: On this page you see the gnomes burning all of the spiders that they hunted that day. You feel anger and sadness. You decide to kill them too, so you must plan a strategic way to take them out. (This is up to the PCG master if it works or not)

Pg#5-6: Again more story and not really playable screens.
