#1

2022 Paper Computer Game

By: Epic Worlds PCG

Introduction: You play as Hmbtiger, and you start off the game in your ship to go out for a joy ride, but all of a sudden your rear engines fail, and you must make an emergency landing on the landing pad.

- Land on the landing pad (the big circle with a + on it).
- Step across the bridge to the other island
- Your ship is no longer usable, so you are stranded here
- On the first island is the Sleeping Guy. He has a key you must get, but whenever you touch him, or make a loud sound he will slap you in the face which causes you to fly off of the island. (you can not touch the key without getting slapped either)
- To get past him you must get to the second island where there is a taser
- Then on the next bridge you see The Fat Guy, and he is there because he likes blocking people's path for a living. To get past him break the bridge under him by stomping on it, and then climb the rope to get to the 2nd island
- Once you are on the 2nd island you see 2 mercado coins which you can save for the next game. You also see two Tiki Nookie tribal warriors who have spears and will attack you. They attack by charging, so simply step out of the way and they will go charging off of the island and fall into the white void.
- Then you can grab the taser, and tase the sleeping guy to get the key.
- You can then use the taser and key to repair the ship.
- Then you can fly up to the chest and unlock it.
- Once the chest is unlocked you will see a portal that sucks only you in and not your ship.....
- This will lead to game 2 in the tiger series which is also on the PCG shop.
