2022 Paper Computer Game

By: Epic Worlds PCG

Introduction: You play as Hmbtiger, and you have just come through the magic door from the last game, and now you awake in this strange alien flying saucer.

Pg#1: You start on the left of the screen and you are in a flying saucer. There is a secret room directly in the middle of the ship with a locked door. First you must get past the Wonder Bread dude by insulting him. If you try to defeat him any other way he will kill you. To get past the alien you must shoot him with the Wonder Bread dudes gun. There is a small table behind the alien which you can use to block part of the ship for later on. In the right of the ship is a small living key, and to catch him first block off a side of the ship with the table, and then pour some Gron-Oil on the floor to make the key slip, you can then grab it and open the door.

Pg#2: You see The Fat Guy. He just loves to block your way, so to get past him you can either give him the Wonder Bread dude to eat, or some Gron-Oil which will make it slippery enough to squeeze past him.

That is the end of game #3, but more games are to come in the future.....
