2022 Paper Computer Game

By: Epic Worlds PCG

Introduction: you play as The Red Baron and you have always wanted to explore what is in the mysterious skies of the planet Gondo, so you take your ship and head off....

- You are in your ship on the bottom left of the screen.
- There is a cloudian named Moe to the right, and you can buy his missiles, bombs, or guns to help you shoot down enemy ships, but first you must get the three mercado coins on the top right of the screen, but they are surrounded by birds, so you must first take the rope from the Hento soldier standing on a hovering platform in the middle-right of the screen. You can kill him by running right into him with your aircraft. You can then use the rope to get the coins and buy some stuff from Moe.
- The enemy ships from the top left of the screen have finally got here, so you must use your supplies you bought, and the clouds to hide in to take them down.
- You can then go into the portal on the top left of the screen and continue to the next pcg.
