Introduction: Gnome The Maze takes place after Gnome #5. You play as Gnome of course, and after Gnome Air sent you to look for the golden hat and you found it, now they want you to find **The Gnome Map which leads to a ancient civilization of Gnome Warriors who are in hiding after Z.B.H.I.A.H burned all of their weapons and called the war against trolls off (Gnome: The Voice).**

- C) This is Rorric with his two henchmen to the sides of him. He has a huge gun, and it will kill you right away. To get past him you must talk him out of it, like praising him, or telling him how important it is to get the staff. If you try to fight him, you can try to ram him with your golden hat, but you would quickly need to run away before his henchmen get you.
- D) A group of Gondo Spiders that will all attack you, so you must use some fungus from (I) to retract them.

- L) Triga Tom. He will give you his key, but only if you help him get back his crystal heart from (N)
- M) George the Squid. He will not give you his key, so you must use your freeze spray to freeze him so you can grab the key.
- N) You see two company guards with guns, you can either show (K) to scare them, or use one of Rorric's guns to take them down.
- O) A "Guy" behind a barricade. You can throw a mushroom at him so he will run away and drop his two spears.
- P) You see some Mechs, and they will only shoot you if you try to open the door, so you must use the TNT (Q) to take them out.
