Thanksgiving

Instructions

The goal is to eat the turkey. When you eat it, you win the game.

Screen 1

You're standing in front of the turkey. If you try to eat it, its head pops out. Go to screen 2.

Screen 2

The turkey's head pops out, and it says it doesn't want to be eaten.

It's been half cooked -- its body is cooked, but its head is alive. It will object to being eaten.

You have to figure out how to convince the turkey to let you eat it.

When you eat it, you win the game.
